

Challenge #5: Implementation of head tags

Objectives: Implement head tags in your project.

```
index.html • # style.css
index.html > ...
1 <!DOCTYPE html>
2
3 <head>
4   <title>PAG" M'lang"A</title>
5   <link rel="stylesheet" href="style.css">
6   <link rel="icon" type="image/x-icon" href="/images/favicon.png">
7 </head>
8 <body>
9
```

The head tag contains the title of my website, the link of stylesheet and link of favicon.
