

Challenge #2: Basic HTML Application

Objectives:

- Apply basic html tags in relation to the planned website based on your learning in w3school.
- That can demo the basic part of the html sections.

The HTML tags applied in relation to the planned website based on my learning in w3school are:

```
index.html X # style.css
index.html > head > link
1 <!DOCTYPE html>
2 <head>
3   <title>PAG'M'lang'A</title>
4   <link rel="stylesheet" href="style.css">
5 </head>
6 <body>
7   <!--Header-->
8   <section id="header">
9     <div class="header container">
10      <div class="navbar">
11        <div class="web">
12          <a href="#first"><h1>Pagpa<span>M'lang</span></h1></a>
13        </div>
14        <div class="nav-list">
15          <ul>
16            <li><a href="#first" data-after="Home">Home</a></li>
17            <li><a href="#delicacies" data-after="Delicacies">Delicacies</a></li>
18            <li><a href="#eatp" data-after="Eating Places">Eating Places</a></li>
19            <li><a href="#about" data-after="About Us">About Us</a></li>
20          </ul>
21        </div>
22      </div>
23    </div>
24  </section>
25  <!--End of Header-->
26  <!-- Home Section-->
27  <section id="first">
28    <div class="first container">
29      <div>
30        <h1>I-Experience <span></span></h1>
```
